EXPERIENCE

Full-Stack Developer - Grow More Gaze | Oct 2023 — Present

Building a multi-tenant SaaS platform serving 40,000+ customers across payments, payroll, and HRM.

- Built the core platform from scratch — org portfolio, HRM, payroll, invoicing, and internal email campaigns
- Integrated multi-gateway payments: PayPal, Stripe, Paddle, crypto, PayProGlobal, bKash, and Nagad
- Own the full lifecycle: architecture, Laravel/Vue/TypeScript dev, DB design, servers, and CI/CD
- Lead technical planning and set the team's workflows and best practices
- Weave AI agent workflows (OpenClaw, LLM APIs) into development and operations

Senior Software Engineer - Softrobotics Bangladesh Ltd | Sep 2021 — Sep 2023

Core payments engineer on SiPay, a banking payment platform built for institutional clients.

- Developed merchant banking, mobile banking, and comprehensive payment modules
- Built diverse payment flows: link, P2P/B2B, QR, bill pay, POS, cash out, deposit/withdraw
- Scaled backend services on microservices with Elasticsearch + Graylog logging
- Integrated HSM devices for secure crypto operations and key management
- Promoted to team lead for the final 4 months, owning delivery of the core payment flows

Full-Stack Web Developer & Designer - Stellar BD Ltd | Oct 2019 — Aug 2021

Built HRM/payroll systems wired to IoT hardware and client web apps.

- Built core HRM, payroll, and shift modules integrated with fingerprint scanners
- Real-time IoT sync via MQTT for device communication and management
- Client websites and automation scripts in PHP, JavaScript, Python, and Web2py
- Designed responsive UIs and managed hosting end-to-end

Full-Stack Web Developer - Multiplex Web Design | Mar 2018 — Sep 2019

Delivered custom web apps for SMB clients, end-to-end.

- Handled full project lifecycles: requirements through deployment
- Full-stack with PHP, JavaScript, MySQL, and responsive design
- Worked directly with clients on scoping, timelines, and delivery
